Ed, your 3/10 quotes rumor from friend that Rebozo's brother arrested in narcotics case. If you have an informed source on Rebozo, can you learn anything about his wife? I understand her maiden named was Barker, as in Bernard Barker, CIA-er, Watergater, etc. Not too many Cubans so named. HW 3/12/73

Before this note arrived, had meant to include with our last mailing to you a note to say that we'd just checked Who's Who (1971-72, 72-73) and found Mr. Rebozo, but no mention of any wife, present, former, or late. Doesn't mean there isn't/wasn't one - maybe he just isn't saying. You've mentioned this maiden name, which is why we checked. Where did you get it?
